[Apply Now](#)

Company: Unity Infotech

Location: kochi

Category: other-general

Unity Infotech has multiple opportunities in Microsoft .NET and is hiring for the following roles for its Banking, FinTech & Payments practices: Software Engineer (ASP.NET, .NET Core, MVC, Angular) Software Engineer (.NET Support - L1, L2) Work Location: Kochi/Cochin, IND Start Date: Immediate Job Overview We are seeking an experienced and highly skilled .NET Developers/L1-L2 Support Specialists to join our dynamic and innovative development team. The successful candidate will be responsible for designing, developing, testing, and maintaining high-performance, scalable, and secure web applications using the .NET framework. The ideal candidate should have a minimum of 3 years of professional experience in .NET development and a strong background in software engineering principles. Responsibilities Collaborate with cross-functional teams, including product owners, UI/UX designers, and other developers, to define project requirements and specifications. Design and develop robust, scalable, and maintainable web applications using the .NET framework and related technologies. Write clean, efficient, and well-documented code, adhering to coding standards and best practices. Conduct thorough code reviews to ensure code quality, performance, and security. Participate in the entire software development lifecycle, from planning and design to implementation, testing, and deployment. Identify and troubleshoot software defects and issues, providing timely resolutions. Stay updated on industry trends, emerging technologies, and best practices to continuously improve development processes. Mentor junior developers and provide technical guidance and support. Requirements Bachelor's degree in Computer Science/Electronics preferred. Minimum of 3 years of professional experience in .NET development. Proficient in

C# and the .NET framework, with hands-on experience in ASP.NET MVC and/or ASP.NET Core. Strong understanding of object-oriented programming principles and design patterns. Experience with front-end technologies such as HTML, CSS, JavaScript, and front-end frameworks (e.g., Angular, React, or Vue.js). Knowledge of database design and development using SQL Server or other relational databases.
