Category: computer-and-mathematical

Job Title : .NET/PL/SQL Developer
Job Overview :We are seeking a skilled and experienced .NET/PL/SQL Developer to join our dynamic team. The successful candidate will be responsible for designing, developing, testing, and maintaining applications that leverage both the .NET framework and PL/SQL within an Oracle Database environment. The ideal candidate should have a strong background in both technologies and be capable of working on both front-end and back-end development tasks.

Responsibilities :

1. Software Development :- Design, code, test, and maintain .NET applications using languages such as C# or VB.NET.- Develop and optimize PL/SQL stored procedures, functions, triggers, and packages to support business requirements.
2. Database Integration :- Utilize Oracle Data Provider for .NET (ODP.NET) to establish and maintain connections between .NET applications and Oracle databases.- Implement data access logic and ensure efficient interaction with the Oracle Database using PL/SQL.
3. Collaboration :- Work closely with cross-functional teams, including business analysts, QA engineers, and other developers, to understand requirements and deliver high-quality solutions.- Collaborate with database administrators to optimize database performance and ensure data integrity.
4. Code Reviews and Documentation :- Conduct and participate in code reviews to ensure code quality and adherence to coding standards.- Document code, technical designs, and procedures to facilitate future maintenance and enhancements.
5. Troubleshooting and Support :- Diagnose and resolve software defects and issues reported by end-users.- Provide technical support and guidance to team members and end-users as needed. (ref:hirist.tech)
