

## Ajmera Infotech Inc. - Senior React.js Developer - Javascript Frameworks

[Apply Now](#)

Company: Ajmera infotech PVT. LTD.

Location: Bangalore/Ahmedabad/Pune/Gurgaon/Gurugram/Chennai

Category: computer-and-mathematical

This is a remote position. Position : Senior React JS Developer Experience : 5+ Years Education : BTech/BE-Computer Science, IT, MS in IT, MTech. MSc IT.No of Positions : 10 Mode : Remote/Hybrid Location : Bangalore, Ahmadabad, Hyderabad, Pune, Gurugram, and Chennai ABOUT AJMERA INFOTECH : Established in 2012, our company specializes in software research and development, focusing on high availability and mission-critical systems. We are proud to be the architects behind the technology powering some of the top 250 banks and wealth management organizations. Join Ajmera Infotech : Where Cutting-Edge Technology Meets Innovation At Ajmera Infotech, we're on a mission to redefine the digital landscape through our technological expertise and innovative solutions. We're seeking developers with a passion for technology and a desire to tackle complex challenges. Here's what sets us apart: Tech Expertise & Innovation :- Diverse Tech Stack : Work with a wide array of technologies including scalable web applications, mobile apps, and cloud-native solutions across platforms like AWS, Google Cloud, and Azure.- Leading-Edge Projects : Engage in projects involving AI, machine learning, IoT, and blockchain, pushing the boundaries of what's possible.- Continuous Learning : Stay at the forefront of technology with access to the latest tools, resources, and training. Job Description : We are looking for a highly skilled and experienced Front-End Tech Lead to join our dynamic development team. As a Front-End Tech Lead, you will play a pivotal role in the design, development, and implementation of web applications. You will be responsible for providing technical leadership, guidance, and support to the front-end development team, ensuring the delivery of high-quality, responsive, and user-friendly web:- Technical Leadership : Lead and mentor the

front-end development team, providing guidance, coaching, and support in developing modern web applications.- Architectural Design : Collaborate with the architecture and design teams to define front-end architecture and best practices, ensuring scalability, performance, and maintainability.- Development : Hands-on development of front-end code, including HTML, CSS, JavaScript, and related technologies. Write clean, efficient, and maintainable code.- Code Reviews : Conduct code reviews to ensure coding standards, best practices, and quality are met. Provide constructive feedback and mentorship to team members.- Project Management : Work closely with the project management team to define project requirements, estimate work efforts, and ensure timely delivery of front-end components.- Quality Assurance : Collaborate with QA teams to ensure thorough testing and validation of front-end components, resolving issues and bugs on time.- Performance Optimization : Optimize front-end code and assets for improved performance, speed, and user experience.- Communication : Effectively communicate and collaborate with cross-functional teams, including designers, back-end developers, and stakeholders.

**Requirements Key Responsibilities :**

- React Mastery :-** Demonstrate a deep and comprehensive understanding of React, using it to build high-quality, performant, and user-friendly web applications.
- Micro Front-End Architecture Proficiency :-** Utilize your expertise in Micro Front-End architecture to design and implement modular and scalable front-end solutions, allowing for greater flexibility and collaboration in our development process.
- Content Delivery Networks (CDN) Competency :-** Leverage your knowledge of Content Delivery Networks to optimize the delivery of assets, ensuring fast and reliable content distribution to users across the globe.
- Server-Side Rendering (SSR) Skills :-** Apply your skills in Server-Side Rendering to enhance the performance and SEO-friendliness of our web applications, providing a seamless user experience.

**Qualifications :**

- Bachelor's degree in Computer Science or a related field (or equivalent experience).
- Proven experience as a Front-End Developer with a strong portfolio of web projects.
- Solid expertise in HTML, CSS, JavaScript, and related web technologies.
- Proficiency in modern front-end frameworks and libraries (e.g., React, Angular, Vue.js).
- Experience with version control systems (e.g., Git).
- Strong leadership and mentoring skills.
- Excellent problem-solving and debugging skills.
- Familiarity with responsive web design and mobile-first development.
- Knowledge of web performance optimization and security best practices.
- Strong communication and teamwork skills.
- Ability to work in a fast-paced, collaborative environment.

**Benefits Why Choose Ajmera Infotech? - Meaningful Impact :** Your contributions will power critical solutions, impacting thousands globally.- **Growth Path :**

Personalized development plans to help you reach your professional goals.- Collaborative Culture : A supportive team environment where innovation thrives.- Work-Life Harmony : Flexible schedules and remote work options to fit your lifestyle.- Rewarding Compensation : Competitive salary, benefits, and recognition for your hard work. Your Role in Our Future : As part of our team, you'll not just be developing software; you'll be pioneering solutions that define the next generation of technology. If you're ready to explore the cutting edge of tech and make a lasting impact, Ajmera Infotech is your next destination. Embark on a Journey of Innovation and Growth with Us. (ref:hirist.tech)
