Chief Enterprise Architect (Mobile Applications Security) - India Based

Apply Now

Company: Zimperium

Location: india

Category: other-general

Zimperium® is an industry leader in enterprise mobile security, being the first and only company to provide a complete mobile threat defense system that offers real-time, on device world-class protection against both known and unknown next generation of advanced mobile cyberattacks and malware. Our MTD and award-winning machine learning-based engine protects against device, network, phishing and application attacks for IOS, Android and Windows devices, using a non-intrusive approach to always protect privacy of users. We are seeking a dynamic and experienced Chief Enterprise Architect to lead our global R&D team in designing and implementing secure, scalable, and efficient solutions for our cybersecurity products and services. The ideal candidate will have a strong background in building cybersecurity solutions are services, coupled with expertise in mobile and web development and data engineering. Location: The position is based in either EMEA or APAC regions only Responsibilities:1. Technical Leadership: Provide strategic guidance and technical leadership to the development team, ensuring alignment with company goals and industry best practices.2. Architecture Design: Design and architect robust, scalable, and secure solutions for cybersecurity products and services, encompassing mobile and web applications and data engineering pipelines.3. Security Expertise: Lead efforts to identify potential security vulnerabilities and implement measures to mitigate risks across all aspects of the technology stack.4. Cross-Functional Collaboration: Collaborate closely with product management, engineering, and research teams to translate business requirements into technical solutions.5. Technology Evaluation: Evaluate emerging technologies and tools relevant to cybersecurity, mobile and web development, and data engineering, recommending

adoption where appropriate to enhance product capabilities and security posture.6. Code Review and Quality Assurance: Oversee code reviews and ensure adherence to coding standards, security protocols, and best practices to maintain high-quality deliverables.7. Mentorship and Development: Provide mentorship and guidance to junior team members, fostering their professional growth and promoting a culture of continuous learning and improvement.8. Risk Management: Assess and manage technical risks associated with product development and deployment, implementing strategies to mitigate potential vulnerabilities and threats.9. Compliance and Regulations: Stay abreast of relevant cybersecurity regulations and compliance standards, ensuring that products and solutions adhere to applicable requirements. Requirements:Bachelor's or Master's degree in Computer Science, or a related field.10+ years in a leadership role within a cybersecurity-focused organization.Extensive expertise in mobile and web development frameworks and methodologies (e.g., React Native, Angular, Node.js, C++, Swift, Kotlin, Java etc.).Strong proficiency in data engineering technologies, including data pipelines, ETL processes, and data warehousing (e.g., Apache Spark, Kafka, Hadoop, etc.).Deep understanding of cybersecurity principles, protocols, and best practices, with experience in threat modeling, vulnerability assessment, and incident response.Demonstrated ability to design and architect secure, scalable, and resilient systems, with a focus on confidentiality, integrity, and availability.Excellent communication and interpersonal skills, with the ability to effectively collaborate with cross-functional teams and articulate technical concepts to non-technical stakeholders.Strong analytical and problem-solving abilities, with a proactive approach to identifying and addressing technical challenges.Relevant certifications (e.g., AWS Certified Solutions Architect, GCP Cloud Architect etc.) are a plus. Zimperium is an Equal Opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex including sexual orientation and gender identity, national origin, disability, protected veteran status, or any other characteristic protected by applicable federal, state, or local law.
