

## civil structural Designer (Revit)

[Apply Now](#)

Company: Padink Engineering

Location: Chennai

Category: installation-maintenance-and-repair

We are seeking a skilled Civil and Structural Revit Technician to join our dynamic team. As a key member of our engineering department, you will be responsible for utilizing Revit software to produce accurate and detailed drawings for civil and structural engineering projects. The ideal candidate will have a strong background in both civil and structural engineering, coupled with extensive experience in using Revit software. Collaborate with engineers and architects to develop detailed Revit models for civil and structural engineering projects. Create accurate drawings, plans, and schematics using Revit software, ensuring compliance with industry standards and project requirements. Assist in the coordination of design activities with other disciplines to ensure the seamless integration of civil and structural components. Perform quality checks on Revit models and drawings to identify and resolve any discrepancies or errors. Contribute to the continuous improvement of workflows and processes within the engineering department. Requirements Bachelor's degree in Civil Engineering, Structural Engineering, or a related field. Proven experience as a Revit Technician or similar role, with a focus on civil and structural engineering projects. Proficiency in using Autodesk Revit software for the creation of 3D models, drawings, and documentation. Strong understanding of civil and structural engineering principles, codes, and standards.

Bachelor's degree Engineering

4-5 years

Revit
