

Data Migration Expert

[Apply Now](#)

Company: Orion Innovation

Location: India

Category: computer-and-mathematical

Orion Innovation is a premier, award-winning, global business and technology services firm. Orion delivers game-changing business transformation and product development rooted in digital strategy, experience design, and engineering, with a unique combination of agility, scale, and maturity. We work with a wide range of clients across many industries including financial services, professional services, telecommunications and media, consumer products, automotive, industrial automation, professional sports and entertainment, life sciences, ecommerce, and education.

Data Assessment and Planning:

Collaborate with stakeholders to assess existing data structures and determine migration requirements.

Develop comprehensive data migration plans, including mapping, transformation, and validation processes.

Migration Execution:

Execute end-to-end data migration processes, ensuring the accuracy, completeness, and integrity of migrated data.

Utilize tools such as Scribe for efficient and secure data transfer between systems.

Perform data cleansing, transformation, and validation as part of the migration process.

ETL (Extract, Transform, Load) Development:

Design and implement ETL processes to facilitate data movement between various systems.

Optimize ETL workflows for performance, reliability, and scalability.

Data Mapping and Transformation:

Collaborate with developers, analysts, and business stakeholders to create data mapping and transformation rules.

Implement data transformations to meet target system requirements.

Data Quality Assurance:

Develop and execute data quality checks to identify and rectify any inconsistencies or errors during migration.

Implement best practices for maintaining data quality and accuracy.

Documentation:

Document migration processes, data mappings, and transformation rules.

Provide training and documentation for end-users on data migration-related processes.

Collaboration:

Collaborate with cross-functional teams, including developers, database administrators, and business analysts, to ensure successful data migration.

Provide support during testing, troubleshooting, and post-migration activities.

Orion is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, creed, religion, sex, sexual orientation, gender identity or expression, pregnancy, age, national origin, citizenship status, disability status, genetic information, protected veteran status, or any other characteristic protected by law.

Candidate Privacy Policy

Orion Systems Integrators, LLC and its subsidiaries and its affiliates (collectively, "Orion," "we" or "us") are committed to protecting your privacy. This ("Notice") explains:

What information we collect during our application and recruitment process and why we collect it;

How we handle that information; and

How to access and update that information.

Your use of Orion services is governed by any applicable terms in this notice and our general .
