Company: Gameskraft

Location: Bengaluru

Category: other-general

Why choose Gameskraft? Gameskraft is one of India's largest gaming companies - a bootstrapped and profitable Unicorn with products in Rummy, Daily Fantasy Sports, Poker, Ludo, and now Casual Games. Founded in 2017, Gameskraft grew rapidly and achieved profitability fast due to our focus on core tenets of delivering fun through superior technology, innovation for consumers, delightful design and UX, and quality customer support. The company was founded by passionate gamers with a strong pedigree. The founders and leadership team have been instrumental in building and scaling technology, gaming, and consumer internet companies such as Myntra, Flipkart, Google, Zynga, GSN Games, Moonfrog Labs, Grofers, Swiggy, Paytm, Snapdeal, Makemytrip, OYO, CA Technologies, Arcot, Ola among others. They are also esteemed alumni of premium Indian institutes like IIT, IIM, ISB, BHU, NIT, NSIT, etc. We have ~700+ employees based out of Bangalore. Gameskraft's Vision is "To create unmatched experiences, every day, everywhere". So, we're growing across newer gaming categories and geographies. Gameskraft is also a Principal member of the All-India Gaming Federation (AIGF). Our Brands Our flagship brand, 'RummyCulture', is the #1 Rummy brand in India by Revenue. It also holds the Guinness World Record for "Largest Online Rummy Tournament" - a testament to our scale and technology prowess. Besides RummyCulture, Gameskraft Group also operates the RummyTime, Play Ship & Rummy Prime brands in Rummy segment. 'Gamezy' is our super app brand that pioneered many Industry first consumer features in Daily Fantasy Sports. 'Pocket52' & 'Ludo Select' are our fast growing brands in the Poker & Ludo segments respectively. Job Description – DevOps Engineer III About the

role We're seeking motivated and proactive DevOps Engineers with a strong technical background in building large-scale distributed systems, high on ownership, a love for working with people, and a track record of shipping high-quality applications. This is a fantastic opportunity to be part of a passionate engineering team disrupting the gaming industry in India.

What you'll do:

- Design deployment models for scalable, highly available, secure, and fault-tolerant systems on AWS for the development and test lifecycle of AWS Cloud Native solutions.
- Drive operational excellence through metrics
- Triage and remediate production issues. Participate in on-call rotations for escalations
- Improve developer efficiency
- Advise on and implement industry-standard security best practices and support third-party audits of our systems.
- Establish strong relationships with internal partners and peer stakeholders to understand and meet their needs while operating existing systems at a high quality
- Champion best practices and enable and support more junior members of the team

What we're looking for:

- 5+ years of experience maintaining large-scale production environments in AWS
- Deep knowledge of AWS especially with services like S3, CloudFront, ELB, Lambda, VPC, Route 53, RDS, ElastiCache, CloudWatch, EC2, Security Center, Kubernetes, ECS/Fargate, ECR
- Strong working knowledge on compliance, AWS & cloud security
- Solid understanding of networking principles and how it applies to data flow and security
- 5+ years administering Linux environments with programming / scripting experience (e.g. Python, JavaScript, PowerShell)
- Automating deployments of cloud based highly-available services (e.g. AWS EC2 / RDS, Docker, Kubernetes)
- Management of resources using Infrastructure as Code tools (e.g. CloudFormation, Terraform, Chef)
- Experience with monitoring, logging, and analysis tools (e.g. CloudWatch, Datadog, Sumo Logic, New Relic)
- Worked within agile and lean software development teams

What can you expect?

Work Culture

- A true startup culture - young, fast paced, where you are driven by personal ownership of solving challenges that help you grow fast.
- Focus on innovation, data orientation, being results driven, taking on big goals, and adapting fast
- A high performance, meritocratic environment, where we share ideas, debate and grow together with each new product
- Massive and direct impact on the work you do. Growth through solving dynamic challenges
- Leveraging technology & analytics to solve large scale challenges
- Working with cross functional teams to create great product and take them to market
- Rub shoulders with some of the brightest & most passionate people in the gaming & consumer internet industry

Compensation & Benefits

- Attractive compensation and ESOP packages
- INR 10 Lakh medical insurance cover for yourself and your family
- Fair & transparent

performance appraisals● An attractive Car Lease policy● Relocation benefits● A vibrant office space with fully stocked pantries. And your lunch is on us!
