Company: Medfam

Location: Bengaluru

Category: other-general

Company Description

MedFam is a holistic health and geriatric care provider based in Bengaluru. We believe in taking a comprehensive approach to improve the well-being of our elderly clients. Our team of experienced geriatric care specialists work closely with families and healthcare providers to develop personalized care plans. We offer a wide range of services, including in-home care, medication management, and physical therapy, among others. Join us as we redefine geriatric care and provide compassionate support to elders in our community.

Role Description
This is a full-time on-site role for a Django Developer at MedFam in Bengaluru. The Django Developer will be responsible for various day-to-day tasks associated with back-end and front-end development. These tasks may include software development, programming, and working with databases. The Django Developer will collaborate with a team to build and maintain web applications that enhance our geriatric care services.

Qualifications
At least 2 years of Back-End Development using Django.

Front-End Development and Programming skills

Experience with Databases

Strong problem-solving and analytical skills

Excellent coding skills in Python and Django framework

Familiarity with HTML, CSS, and JavaScript

Understanding of software development principles and best practices

Ability to collaborate and work effectively in a team

Bachelor's degree in Computer Science or a related field
