

Electrical Engineer

[Apply Now](#)

Company: QuEST Global Services Pte. Ltd

Location: India

Category: architecture-and-engineering

Quest Global is an organization at the forefront of innovation and one of the world's fastest growing engineering services firms with deep domain knowledge and recognized expertise in the top OEMs across seven industries. We are a twenty-five-year-old company on a journey to becoming a centenary one, driven by aspiration, hunger and humility.

We are looking for humble geniuses, who believe that engineering has the potential to make the impossible, possible; innovators, who are not only inspired by technology and innovation, but also perpetually driven to design, develop, and test as a trusted partner for Fortune 500 customers.

As a team of remarkably diverse engineers, we recognize that what we are really engineering is a brighter future for us all. If you want to contribute to meaningful work and be part of an organization that truly believes when you win, we all win, and when you fail, we all learn, then we're eager to hear from you.

The achievers and courageous challenge-crushers we seek, have the following characteristics and skills:

Job Description

1) Experience in Product Development and Electrical Systems development as per Marketing Requirement Document

(MRD), Product Requirement Document (PRD) and Regulatory Requirements (RR)

2) Proficient in Electrical Components with development capabilities include, specifications

development, sizing &

selection, testing (functional & reliability) and analysis, for followings components:

Electrical Components: Switchgear and Control components, Primary and secondary protection devices, Safety

devices, Transformer, Relay, Connectors, Power Supply, Sensors, Transducers and Switches

LV Motors (AC Induction, Brush DC, BLDC, Stepper, Servo, Permanent Magnet)

Application development - LV Motor Starters and Controllers (X-Link, Star/Delta, Soft Starters, Variable Frequency

Drives)

3) Proficient in Design and development of Low Voltage control panel

4) Proficient in Product Level Electrical system design, Wiring & Harness Design
