

Frontend Developer - Angular/Vue.js - SaaS/Cloud Native Platform

Apply Now

Company: Squareroot Consulting Pvt Ltd.

Location: India

Category: computer-and-mathematical

Looking for skilled Frontend Developer with expertise in Angular or Vue.js to join our SaaS/Cloud Native platform team. As a Frontend Developer, you will be responsible for developing and maintaining the user interface of our SaaS/Cloud Native platform. You will collaborate closely with our UX/UI designers and backend developers to deliver a seamless and intuitive user experience.

Job Title: Frontend Developer (Angular/Vue.js) - SaaS/Cloud Native Platform

Location: Remote/ Work From Home

Job Type: Full-time

Experience: 5+ Years Develop and maintain the frontend components and user interface of our SaaS/Cloud Native platform using Angular or Vue.js.

Collaborate with UX/UI designers to transform wireframes and mockups into responsive and user-friendly interfaces. Implement reusable and modular components, following best practices and coding standards. Integrate frontend components with backend APIs and services. Ensure cross-browser and cross-device compatibility and optimize performance for smooth user experiences. Collaborate with the backend development team to design and implement RESTful APIs and ensure seamless integration between the frontend and backend. Participate in code reviews, testing, and debugging to ensure high-quality code and application stability. Stay up-to-date with the latest frontend trends, tools, and frameworks and propose improvements to enhance the frontend development process. Contribute to the overall architecture, scalability, and security of our SaaS/Cloud Native platform.

Qualifications: Any Engineering degree in Computer Science,

Information Science, or a related field.

- Proven experience as a Frontend Developer, with a focus on Angular or Vue.js.

- Strong knowledge of HTML, CSS, and JavaScript.

- Experience in building responsive and user-friendly interfaces for complex web applications.

- Familiarity with frontend build tools such as Webpack, Babel, or Grunt.

- Experience working with RESTful APIs and integrating frontend components with backend services.

- Understanding of version control systems, preferably Git.

- Knowledge of SaaS or Cloud Native concepts and technologies is a plus.

- Strong problem-solving and analytical skills, with an attention to detail.

- Excellent communication and collaboration skills to work effectively within a cross-functional team.</p><p> (ref:hirist.tech)</p>
