

iOS Developer - Objective C/SWIFT/Xcode

[Apply Now](#)

Company: IBU Consulting

Location: Bangalore

Category: computer-and-mathematical

Position Overview :As an iOS Developer with 5-8 years of experience, you will be responsible for the design, development, testing, and maintenance of software applications for iOS devices. Working closely with other engineers, product managers, and stakeholders, you will ensure the successful delivery of high-quality software solutions. Additionally, as a senior member of the engineering team, you will provide technical guidance and mentorship to junior developers.

Responsibilities :Software Development :- Design, develop, test, and maintain software applications for iOS platforms using established coding standards and best practices.- Implement user interface components, features, and functionalities based on project requirements.

Requirement Analysis :- Analyze user requirements to determine the feasibility of design within time and cost constraints.- Collaborate with stakeholders to understand project goals and user needs.

Collaboration and Communication :- Work closely with other engineers, product managers, stakeholders, and end-users to ensure the successful delivery of projects.- Communicate effectively to gather requirements, provide updates, and address feedback.

Technical Specifications :- Develop technical specifications based on user requirements, outlining the architecture, design, and implementation details of the software solution.

Troubleshooting and Performance Monitoring :- Troubleshoot existing code issues as needed, identifying and resolving bugs and performance bottlenecks.- Monitor system performance metrics to identify areas for improvement and optimization.

Technical Guidance and Mentorship :- Provide technical guidance and mentorship to junior members of the engineering team, assisting in their professional development and growth.- Share knowledge and best practices to enhance the overall

capabilities of the team. Code Reviews :- Participate in code reviews to ensure code quality, adherence to coding standards, and alignment with project requirements.- Provide constructive feedback to team members to promote continuous improvement. Key Skills :- Extensive experience in iOS application development using Swift and/or Objective-C.- Proficiency in iOS SDK, Xcode, Interface Builder, and other development tools.- Strong understanding of iOS design patterns, user interface guidelines, and best practices.- Experience with RESTful APIs, networking, and data persistence on iOS platforms.- Solid knowledge of software development lifecycle (SDLC) and agile methodologies.- Excellent problem-solving skills and attention to detail.- Effective communication and collaboration skills.- Ability to work independently and as part of a team.- Leadership qualities and a willingness to mentor junior developers. Qualifications :- Bachelor's degree in Computer Science, Software Engineering, or related field.- 5-8 years of professional experience in iOS application development.- Proven track record of delivering high-quality software solutions for iOS platforms.- Experience providing technical guidance and mentorship to junior developers.- Continuous learning mindset and willingness to stay updated with the latest iOS development trends and technologies.
