Company: InterEx Group

Location: Bengaluru

Category: other-general

This is a contract position with a maximum day rate of \$150 USD. We are currently seeking a skilled UI Developer to join our team on a part-time contract basis, working two days a week at our Bengaluru, India office. The ideal candidate will play a key role in enhancing the user interfaces of our web applications while working with a preferred technology stack that includes Linux as the operating system, Apache as the web server, MySQL as the database, and PHP as the script interpreter. Job Description: UI (Front End) Developer Location: Bengaluru (Hybrid) Key Responsibilities:

Collaborate with cross-functional teams to understand project requirements and contribute to the design and development of user interfaces for web applications.

Implement responsive and visually appealing UIs using HTML, CSS, and JavaScript within the context of the specified technology stack.

Work with the preferred web stack, including Linux, Apache, MySQL, and PHP, to ensure seamless integration and optimal performance of web applications.

Conduct thorough testing of UI components to identify and address any compatibility or performance issues.

Work closely with backend developers to ensure a cohesive and efficient collaboration between the frontend and backend components.

Stay updated on industry best practices and emerging trends related to UI development and the specified technology stack.

This is a contract position with a maximum day rate of \$150 USD.
