Company: Myydoctor

Location: Kochi

Category: other-general

Company Description Social Networking and Tele Health Platform for patients , doctors and enterprises all across the world targeting medical tourism and health seeking behavior.
Role Description This is a part-time hybrid role for a Mobile Application Developer at Myydoctor. As a Mobile Application Developer, you will be responsible for developing and maintaining mobile applications. You will work closely with the design and development teams to create user-friendly, innovative, and high-performing mobile applications. This role is located in Kochi , Madurai and Australia with flexibility for some remote work.
Qualifications Strong proficiency in programming languages such as Flutter(compulsory), Java, Kotlin, Swift, or React Native
Experience in mobile application development and deployment for iOS and/or Android platforms
Familiarity with mobile development frameworks and libraries
Knowledge of mobile UI/UX best practices and design principles
Understanding of mobile application security and performance optimization
Experience with version control systems, such as Git
Ability to collaborate effectively in a cross-functional team
Strong problem-solving and debugging skills
Excellent communication and time management skills
Experience with hybrid mobile app frameworks, backend development, or cloud/server technologies would be beneficial.
