Company: Rebuxx

Location: india

Category: other-general

Company Description Rebuxx is a cashback rewards platform that provides a seamless way to earn and save on everyday purchases. With a vast network of partners, users can receive cashback rewards that can be used across our ecosystem, creating a truly personalized shopping experience. Our mission is to empower users to maximize rewards and redefine savings, creating a new era of shopping where every purchase counts.

Role Description This is a full-time remote role for a Mobile App Frontend Developer (Android and iOS). The Frontend Developer will be responsible for designing, developing and implementing user interfaces for web and mobile applications, ensuring a seamless user experience. The Frontend Developer will work closely with the development team to ensure that all projects are delivered on time, adhering to quality standards and best practices.

Qualifications Proficiency in Front-End Development, Responsive Web Design, and Web Development
Excellent understanding of JavaScript, ReactNative, and API integrations
Familiarity with agile development methodologies and version control systems such as Git
Experience in using design tools such as Figma
Strong communication skills and ability to work in a team environment
Bachelor's degree in Computer Science, Web Development or related field
Relevant skills and qualifications that would be beneficial include a passion for technology and a focus on innovation, a desire to learn and grow professionally, and creativity and problem-solving skills.
