

Optical Engineer - Network Tools

Apply Now

Company: Swift Strategic Staff Solutions INC

Location: Bangalore/Hyderabad

Category: computer-and-mathematical

Notice Period : Immediate to 30 Days
About the Role :- We are seeking a highly motivated Optical Network Engineer to join our growing Optical Development Team.- You will play a critical role in supporting the development, operation, and maintenance of our optical transport networks.
Responsibilities :- Leverage your expertise in optical transport networks and transport operations to contribute to the development process.- Troubleshoot and resolve complex issues within optical networks, ensuring optimal performance and stability.- Manage and maintain data center networks, including product lines such as 3k, 9k, NCS-5500, Arista switches, and OTN devices.- Demonstrate strong knowledge of DWDM, OTN, and IP networking fundamentals, including MPLS, BGP, and OSPF.- Analyze and diagnose network problems using industry-standard tools and methodologies.- Collaborate effectively with internal teams to identify and implement solutions for network challenges.- (Preferred) Possess experience with Optical Network Architecture and operations in data center environments involving ADVA Cloudnet MUX, Molex, Infinera, and 400ZR technologies.- (Preferred) Experience working in a Dev/Ops model for optical networks.
Qualifications :- 3-5 years of experience in optical networking with a focus on DWDM and OTN technologies.- Strong understanding of transport networking, IP networking, and DWDM network principles.- Proven ability to troubleshoot and resolve network issues effectively.- Experience managing and maintaining data center networks is a plus.- Familiarity with network protocols such as MPLS, BGP, and OSPF is a plus.- Excellent communication, collaboration, and problem-solving skills.- Ability to work independently and as part of a team.
