

PHP Developer

[Apply Now](#)

Company: IVDISPLAYS Digital Services Pvt Ltd

Location: kolkata

Category: other-general

We are looking for Sr PHP developers with strong Laravel & React js skills to work on some of the finest software's being build on PHP. The software's developed for our global cliens are build on laravel framework, the applications are deployed on AWS Cloud with a strong security shield which the best threat actors will find it difficult to crack. Over the years we have developed various enterprise software's and have always found ways to overcome php shortcomings. One such use case is integrating Elasticsearch to index large datasets and churn reports which otherwise is limited with PHP function. There are more interesting stories of great software's build by us on PHP with workarounds, if you want to be part of this growth story the world finds amazing, we are willing to check your CV.
