

PostgreSQL DBA

[Apply Now](#)

Company: UBS

Location: New Delhi

Category: computer-and-mathematical

Your role You'll be working in the 'Global Reconciliations Utility' IT team in Pune. 'Global Reconciliations Utility' IT (GRU IT) is responsible to deliver an efficient, high quality set of end to end IT Services creating reconciliations that are used globally within UBS. You will be collaborating and working in partnership with Reconciliations Operations across multiple stakeholders within the Bank. Your team Your role: Are you an analytical thinker? Do you enjoy designing, building and running database applications? Do you want to play a key role in transforming a business critical service which covers every line of business in UBS? At UBS, we re-imagine the way we work, the way we connect with each other - our colleagues, clients and partners - and the way we deliver value. We are looking for a Database Administrator to work with the Reconciliations & Data Integrity crew, to help lead us on our digital transformation and journey by:

- Being part of a pod responsible for executing and testing our migrations to PostgreSQL and re-hosting in Microsoft Azure.
- Building observability into our solutions, monitor production health of the databases, optimize and improve performance, help resolve incidents and remediate the root cause of risks and issues.
- Helping drive SRE culture for enhancing reliability, automation, and TOIL reduction of the database products.
- Designing and modelling, with experience in Database schema creation and maintenance, Data security, Operating system software (Linux, macOS, Microsoft Windows, UNIX).

Your expertise Your Expertise:

- ideally 8+ years of experience as a DBA, running and maintaining globally used applications ideally in financial services industry
- deep knowledge on Oracle, PostgreSQL database administration, performance tuning and automation frameworks.
- experience of data modelling (relational and dimensional)
- expert in

underlying Operating Systems such as Red Hat and others. • experience of planning and executing database migrations, Oracle upgrades and Oracle to PostgreSQL. • experience of hosting both on-premise and in Cloud, preferably Azure. • good exposure to computer programming language(s) • experience of Site Reliability Engineering. • knowledge or experience of post trade Reconciliations platforms, such as Clareti Transaction Control or Intellimatch is a bonus.

About us UBS is the world's largest and only truly global wealth manager. We operate through four business divisions: Global Wealth Management, Personal & Corporate Banking, Asset Management and the Investment Bank. Our global reach and the breadth of our expertise set us apart from our competitors. With more than 70,000 employees, we have a presence in all major financial centers in more than 50 countries. Do you want to be one of us? How we hire This role requires an assessment on application. Learn more about how we hire: [ubs/global/en/careers](https://ubs.com/global/en/careers)

Join us At UBS, we embrace flexible ways of working when the role permits. We offer different working arrangements like part-time, job-sharing and hybrid (office and home) working. Our purpose-led culture and global infrastructure help us connect, collaborate, and work together in agile ways to meet all our business needs. From gaining new experiences in different roles to acquiring fresh knowledge and skills, we know that great work is never done alone. We know that it's our people, with their unique backgrounds, skills, experience levels and interests, who drive our ongoing success. Together we're more than ourselves. Ready to be part of #teamUBS and make an impact?
