

Product & Pricing Actuary - Health

[Apply Now](#)

Company: Allianz Services

Location: India

Category: business-and-financial-operations

Key Responsibilities

- Work as an extended team of the ADH actuaries to support various product approval, pricing and Health governance activities.
- Support ADH in the product approval process for retail and group health business of global Allianz OEs with:
 - o Assessment of the initial Health product design and pricing developed by the OE.
 - o Enhancement of the product and pricing with quality, data-driven, practical solutions.
 - o Coordination with ADH, other Group functions and the OE, as required, to ensure timely completion of the product approval process.
- Support ADH in assessing the product and pricing maturity of different OEs with deep dive of the current practices and approach in the OE, identifying the gaps/ improvement areas and suggesting the possible enhancements to improve the product and pricing.
- Support ADH in any other ad-hoc Health actuarial activities
- With a strong problem solving and analytical acumen, understand the existing business challenges and develop data driven solutions that may go beyond the existing practices in a highly dynamic and fast paced environment.
- You bring your knowledge to bear to analyze data, calculate cost trends and identify risk factors.
- Effectively communicate with various internal and external stakeholders to convey complex actuarial concepts and analysis into understandable insights.
- Ultimately, you have an impact on how Allianz is positioned in Health globally.

What we look for

- University degree in mathematics, statistics, economics, data science or any related quantitative fields.
- More than 5 years of past experience as an actuary in Health insurance product design and pricing.
- Strong knowledge in data analysis, with practical programming experience, ideally with R or Python.
- High degree of self-organization and willingness to take ownership.
- Problem solving skills to

address complex issues related to product development and pricing.● Ability to adapt to changing business requirements and market conditions.● Fluency in written and spoken English.
