

Radiology Technician

[Apply Now](#)

Company: Sisco Jobs

Location: Tiruchirappalli

Category: healthcare-practitioners-and-technical

Job Description

Position : Radiology Technician

Salary : 10,000 to 18,000

Employment Type Full-time

Shifts : Rotational

Requirements

Job Responsibilities :

Maintaining Up-to-Date Knowledge Radiology technicians must stay informed about the latest practices and advancements in radiology. This includes continuous learning and potentially participating in additional training or certification programs.

Pre-Examination Review Before conducting any radiological examinations, technicians are responsible for reviewing the patient's charts and any notes from doctors to understand the medical background and the specific areas of concern.

Record Keeping During and after the radiological procedures, technicians need to maintain accurate and comprehensive records of the procedures. This includes noting any specific observations during the exam, results, and ensuring this information is securely logged and accessible for future reference.

Benefits

Key Qualifications :

Knowledge and proficiency in radiological technology and equipment.

Ability to interpret doctors' orders and execute imaging procedures accordingly.

Strong organizational skills to handle documentation and patient records efficiently.

Good interpersonal skills to interact effectively with patients, many of whom may be in distress.

Educational Requirements :

An Associate's degree in radiologist technology or a closely related field is generally required.

Certification and license as required by the state or country of practice.

Requirements

Salary: 10,000 to 18,000 Employment Type: Full-time Shifts: Rotational
