

## React Native Developer - Mobile App Designing

Apply Now

Company: Grorapid labs

Location: India

Category: computer-and-mathematical

Job Description:  
Role Overview:  
We are on the lookout for a seasoned React Native Developer to spearhead the creation of a cross-platform mobile app aimed at senior healthcare. This person will be responsible for developing a cross-platform mobile app from scratch. This role also encompasses the management of compliance and approval processes with the Android Play Store and iOS App Store.  
Key Responsibilities:  
1. App Development: Lead the development of a React Native mobile application, ensuring a focus on the healthcare needs of seniors.  
2. Styling and Layout: Apply expert knowledge in styling and layout techniques to create intuitive and accessible UIs tailored for seniors.  
3. Integration and Collaboration: Collaborate with UX designers, BA, Architect, and backend development teams to ensure smooth API integration and cohesive design.  
4. Store Compliance and Approval: - Oversee compliance with Android Play Store and iOS App Store guidelines. - Handle the app submission process, resolving any issues to secure approval.  
5. Security and Privacy: Implement stringent data security and privacy protocols, particularly for handling  
Skills: - Expertise in React Native principles (such as JSX, components, state, and props) is a must - Strong proficiency in JavaScript, including ES6 and newer features, is crucial. - Experience in building chat-focused applications. - Experience in integrating with mobility solutions - Deep understanding of performance considerations specific to mobile applications, like memory optimization and efficient data fetching. - Must have a detailed understanding of the nuances and differences between platforms (iOS and Android) - Experience in implementing

state management solutions (like Redux or Context API) is a must.<br/><br/>- Experience in leveraging Azure Cloud Services<br/><br/>- Experience with Jira, Github, and Azure DevOps Services<br/><br/>App Store Knowledge:<br/><br/>- Experience with Android Play Store and iOS App Store submission and approval processes.<br/><br/>- Must have lead development of at least 2 cross-platform mobile apps from scratch<br/><br/>Privacy and Security:<br/><br/>- Should be familiar with data privacy laws and secure coding practices including processing PII data.<br/><br/>Leadership: </p><p><br/></p><p>- Previous experience in leading development teams.</p> (ref:hirist.tech)
