SAP Integration Developer

Company: IN-RGY

Location: India

Category: computer-and-mathematical

Job Description

Solving the most complex talent management and HR systems challenges is what we do best! But above all, we are passionate about *people*. We constantly push our boundaries while maintaining our people-first culture.

We're extraordinarily proud to be recognized as a top talent team in our industry and have won the *Great Place to Work* in *tech* for many years.

In this role, you will develop your expertise, work aside an experienced team by working on large-scale projects and you will be responsible for designing, developing, and implementing SAP integration solutions to meet the business requirements of our clients.

You will also contribute to develop the skills of the team through coaching. If you thrive in a team-oriented and collaborative work environment, where your opinion matters — then we want to learn more about you.

What you will do:

Collaborate with cross-functional teams to gather and analyze business requirements for SAP integration projects.

Design and develop SAP integration solutions using SAP Cloud Platform Integration (CPI), or other relevant integration tools.

Configure and customize SAP integration scenarios, including mapping, routing, and

transformation of data.

Collaborate with SAP functional consultants and technical teams to ensure seamless integration between SAP and other systems.

Perform unit testing, integration testing, and support user acceptance testing (UAT) for SAP integration solutions.

Troubleshoot and resolve issues related to SAP integration, ensuring timely resolution and minimal impact on business operations.

Provide technical guidance and support to junior developers and team members.

Stay up-to-date with the latest SAP integration technologies and best practices, and recommend improvements to existing systems and processes.

What you need to succeed

3 or more years of experience in SAP integration development, including hands-on experience with SAP CPI, Point to Point, and Business Integration Builder (BiB)

Good understanding of SAP technologies, such as SAP ERP, SAP S/4HANA, and SAP BTP.

Proficient in SAP integration methodologies, including IDoc, RFC, SOAP, REST, and OData.

Knowledge of SAP NetWeaver and SAP ABAP is a plus.

Good problem-solving and analytical skills, with the ability to troubleshoot and resolve complex integration issues.

Strong communication and interpersonal skills, with the ability to collaborate effectively with cross-functional teams.

Foster a customer-centric approach

Our clients are located both in Quebec and outside Quebec, so you may be required to work in both French and English to meet their needs.

Still hesitant? Below are a few additional reasons to convince you:

WORK ON YOUR OWN TERMS: We believe that work should adapt to fit our life, not the other way around. Whether you prefer working from the comfort of your home, our office, or even while exploring the world, the choice is yours. We even offer a yearly allocation to ensure you have everything you need for a comfortable remote setup.

UNLEASH YOUR FREEDOM: We are firm believers in the power of flexibility to amplify your professional achievements and personal fulfillment. That's why we provide a diverse array of flexible options meticulously tailored to accommodate your needs and preferences.

JOIN A TEAM THAT TRULY CARES: Our people embody a genuine spirit of care and support. It's remarkable to witness their unwavering commitment to help one another. They support each other with genuine empathy, offering a lending hand and understanding whenever needed.

Join us in fostering a world where everyone feels seen, heard, and valued.
