About delaware

We are a renowned global corporation dedicated to delivering advanced business, IT solutions and services, assisting organizations in their business and digital transformations. Our primary goal is to equip companies with the necessary tools to accomplish their mission-critical objectives and future-proof their operations.

We are SAP Platinum partner. Presently, our team consists of over 5000+ skilled professionals spread across 19 countries spanning Europe, Asia, United Kingdom, South America and North America.

What will you be doing as a Sr. P2P Support Consultant @ delaware India?

As a Sr. P2P Support Consultant, provide frontline support for SAP P2P users, addressing and resolving issues in a timely manner to minimize disruptions to business operations. Collaborate with cross-functional teams to troubleshoot and diagnose complex technical problems related to SAP P2P functionality, configuration, and integration.

As a member of our global functional team, you will play a crucial role in solutioning, conducting assessments, participating in design workshops, reviewing, and documenting specifications, and development and delivery of across multiple platforms.

As a consultant, you will have the opportunity to continuously enhance your skills by staying updated with the latest SAP technologies and trends. This commitment to ongoing learning ensures that you can provide the most innovative and effective solutions to our clients.

We are looking for following skills in our new colleague.

8+ Years of experience in end-to-end SAP P2P support and implementation projects, including requirement gathering, solution design, configuration, testing, and deployment. Strong experience in providing ongoing support for SAP S/4HANA P2P process, including troubleshooting issues, resolving user problems, and performing system enhancements. Experience and in-depth knowledge of SAP Procure-to-Pay modules, including SAP MM and SAP Ariba. Experience in providing training, coaching and mentorship to end-users. Excellent communication, presentation, and interpersonal skills. Experience in mentoring, managing small teams and troubleshooting their issues. Strong analytical skills to gather customer requirements and propose solutions. Knowledge of SAP IM and SAP WM modules is nice to have.

Let's Meet Up

Come have a chat with us and tell us all about your skills, talents and previous experience. Make sure to connect with us if you have any questions whatsoever. Apply now and hopefully we'll get to meet each other real soon!
