Company: Bosch Group

Location: India

Category: other-general

Job Description

As an SAP ERP Process and Solution Consultant, you will support us in implementing efficient and compliant delivery and transport processes in international environment and consult us on the successful transition from the current SAP R3 solution to the future SAP S4 Hana solution. You will focus on the following tasks:

- describe/handle requirements and acceptance criteria
- design/develop solution concepts in S4 HANA with the configuration team
- ensure implementation of Business Requirements in new S4 ERP System
- schedule and ensure timelines in an agile development set
- define test cases and conduct solution test
- document technical solution and conduct Key User Training

Experience

5+ years professional know-how in logistics or IT development with SAP systems, preferably S4, in an international environment.

- Knowledge LE R3 and S4 (MM, SD, LE, TM modules) --> especially LE + TM
- Understanding P2P and O2C processes
- Insights in WMS processes (WM --> eWM, BOWAS, LISA)
- Supply Chain Insights (e.g from process consulting or key user roles) in international distribution network (multi-warehouse business)
- Dangerous goods knowledge

- Support us to find a solution how to replace EH&S with SAP Product compliance in S4
- Knowledge about new SAP Solution Product Compliance (PC)
- Insights in DG in SAP R3 (DGP2, DGP2, CG12, CG13) and context with LE and TM
- Interfaces (EDI/API from/between different systems)
- Cross functional insights - Material mater data, O2C Processes (esp. Delivery, Sales,

Packaging)

- Benefit: Dangerous Goods Trainings in ADR, IMDG, IMO, IATA, Chinese road transport

Qualifications

B.E or B.Tech

Additional Information

5-7yrs relevant SAP experience
