Company: MLOPS SOLUTIONS PRIVATE LIMITED

Location: India

Category: computer-and-mathematical

Exp : 5 to 7 Years
Budget :16 LPA upto
Location : Delhi

Job Title: Senior Data Scientist - Predictive Analysis and Classification

Job Description :
We're looking for an experienced Senior Data Scientist specializing in Predictive Analysis and Classification to join our team in Delhi. The ideal candidate will leverage advanced analytics and machine learning techniques to develop predictive models and classification algorithms, focusing on driving innovation in predictive maintenance and enhancing decision-making processes.
Responsibilities :
Predictive Modelling:- Develop and implement advanced predictive models using machine learning algorithms.
- Apply statistical analysis and feature engineering to optimize model performance.
- Collaborate with cross-functional teams to translate business requirements into predictive solutions.
Classification Algorithms :- Design and implement classification algorithms for various use cases like anomaly detection and risk assessment.
- Evaluate and fine-tune existing models for enhanced accuracy and efficiency.
Data Exploration and Pre-processing :- Conduct thorough exploratory data analysis to understand data patterns.
- Implement effective data pre-processing techniques to ensure data quality
