Requirements

Qualifications:

- Bachelor's or Master's degree in Interaction Design, Human-Computer Interaction, or related field.
- An engineer or an individual with a relevant degree, with more than five (5) years' experience in full-stack web development.

Minimum requirements:

- Bachelor's or master's degree in Computer Science, Engineering, or a related field.
- 5+ years of experience in full-stack web development, with a focus on building complex, microservices architecture applications.
- 5+ years of experience in mobile app development, with a strong focus on React Native development.
- Proficiency in HTML, CSS, JavaScript, and modern front-end frameworks/libraries (e.g., React, Angular, Vue.js).
- Solid understanding of server-side programming languages such as Node.js and Python, along with experience with frameworks like Express and Django.
- Deep understanding of mobile app architecture, state management, and responsive design.
- Experience with cloud computing platforms (e.g., AWS, Azure, Google Cloud), and containerization technologies (e.g., Docker, Kubernetes).
- Experience with SQL (PostgreSQL, SQL Server) and NoSQL databases.
- Experience with cybersecurity principles and best practices for securing web applications and data in transit and at rest.
- Familiarity with version control systems (e.g., Git) and agile development methodologies.
- Experience with DevOps practices and CI/CD pipelines, automated testing, and deployment automation.
- Strong problem-solving skills, attention to detail, and a passion for writing clean, maintainable code.
- Excellent communication and collaboration skills, with the ability to work effectively in a fast-paced, agile environment.

Desired requirements:

- Passion for aviation or previous experience in aviation-related projects.
- Familiarity with AI and machine learning concepts, including supervised and unsupervised learning, neural networks, and natural language processing.
- Familiarity with big data technologies and distributed computing frameworks (e.g., Hadoop, Spark) for processing large volumes of aviation data.
- Proficiency in Flutter and Dart programming languages.

Competences / Skills:

- Independence: Ability to work autonomously, making sound decisions and driving initiatives forward.
- Creativity:

Demonstrated track record of crafting imaginative solutions to complex challenges. - Innovative Thinking: Capable of proposing smart, out-of-the-box ideas that break from the conventional. - Resourcefulness: Skilled at finding inventive ways to approach problems and explore uncharted territories. - Initiative: Proactive in seeking new avenues for improvement, constantly pushing boundaries. - Adaptability: Thrives in dynamic environments, adapting swiftly to evolving project landscapes. - Open-Mindedness: Welcomes diverse perspectives and embraces unconventional approaches. - Problem-Solving: Adept at unraveling intricate issues with creative problem-solving tactics. - Curiosity: Possesses a natural curiosity that fuels exploration and discovery of fresh solutions. - Entrepreneurial Spirit: Driven by an innovative mindset, keen to drive our project's success.
