

Senior Lab Technician

[Apply Now](#)

Company: Clear Ventures

Location: India

Category: life-physical-and-social-science

Why Uhnder

Work for a groundbreaking company that is revolutionizing sensing in the automotive industry. As one of the hottest steps in the field, Uhnder is leading the charge with its cutting-edge 4D imaging radar-on-chip technology.

Uhnder India is looking for a Senior Lab Technician, who will be joining a team of industry experts spanning mixed-signal, RF, digital, systems and software experts to develop the next generation of electronics surrounding us and impacting us in our everyday lives.

What you will do:

Prototyping and debugging circuits and mechanical systems.

Managing equipment calibration through outside vendors

Setup and maintenance of lab facilities

Radar module assembly and testing

Chip / IC testing

Production recordkeeping, database management

Part and equipment procurement

Logistics coordination of builds and deployments

Mentorship of younger technicians and contractors

Qualifications:

Diploma/Degree in Electrical/Electronics or equivalent with minimum 7 years of electronics or research laboratory experience

Expert surface mount soldering and rework skills

Excellent organizational and communication skills

Strong working knowledge of standard electronics lab equipment usage, maintenance, and repair

Comfortable reading schematics and PCB layouts as part of board debugging and modification

Proven track record as a self-starter, capable of independent work

Experience in semiconductor companies in IC validation or wireless testing is a plus

Computer skills (Excel, Word, Jira, Confluence, Linux preferred)

Python programming experience a plus

Light mechanical prototyping skills

If you are passionate, hardworking, and want to be part of a company that is pushing the boundaries of radar sensing in the automotive industry, then Uhnder is the place for you. Join us in our mission to make a real difference in vehicle and road safety around the world.
