

## Senior Software Engineer - Golang

[Apply Now](#)

Company: Infoblox

Location: Bengaluru

Category: computer-and-mathematical

**Description**It's an exciting time to be at Infoblox. Named a Top 25 Cyber Security Company by The Software Report and one of Inc. magazine's Best Workplaces for 2020, Infoblox is the leader in cloud-first networking and security services. Our solutions empower organizations to take full advantage of the cloud to deliver network experiences that are inherently simple, scalable, and reliable for everyone. Infoblox customers are among the largest enterprises in the world and include 70% of the Fortune 500, and our success depends on bright, energetic, talented people who share a passion for building the next generation of networking technologies—and having fun along the way. We are looking for a Senior Software Engineer to join our SaaS Next-Gen Platform team in Bangalore, reporting to the senior manager of Software Engineering. In this role, you will use the latest technology to deliver the core foundation for all Infoblox applications. You will play a crucial role in designing and implementing Cloud networking solutions and work with the best of the technical and thought leadership team at Infoblox. This is an exceptional opportunity to join a growing, successful, and innovative organization. At Infoblox, you will be able to thrive in a unique work environment that emphasizes career growth, excellence, innovation, and collaboration. You are the ideal candidate if you are a strategic thinker who collaborates, operates independently, and is driven to meet deadlines and achieve results. What you'll do: Develop, design, and maintain features and iteratively deploy services using Infoblox's cloud-based architecture Design and implement components of Infoblox's Next Generation Platform Recommend ways to improve system reliability, efficiency, and quality Work closely with various cross-functional Product teams Stay up to date on key trends, especially in the

area of Cloud Platforms and networking solutions Own key back-end components of the platform Develop REST and RPC APIs, as well as contribute to the overall API framework What you'll bring: Minimum 8 years of experience in software development with proven experience as a Golang Engineer. Excellent understanding of various cloud platforms, such as AWS, Azure, Google Cloud Platform, and others Good knowledge of networking on Cloud platforms, preferably on DNS, DHCP, or IPAM Proficiency in Go programming language and a solid understanding of its core concepts Experience with system architecture and design patterns Familiarity with web frameworks and libraries used in Golang development, such as Gin and Echo Knowledge of API design and development, including RESTful principles Understanding of concurrency patterns and experience with Goroutines and channels Experience in microservices development with containerization and orchestration technologies, such as Docker and Kubernetes Demonstrated problem-solving skills and the ability to troubleshoot complex network issues Excellent communication and collaboration skills to work effectively with cross-functional teams Bachelor's degree in CS, CE or EE is required; master's degree preferred What success looks like: After six months, you will... Develop expertise in Go/Python Learn new skills related to cloud technologies Develop expertise in a microservices architecture Improve efficiency rate with completing projects After about a year, you will... Make a significant contribution toward infrastructure Make a significant contribution toward design and new ideas Start leading and taking ownership of the feature/project Gain hands-on working experience and become an expert on Docker and Kubernetes We've got you covered: Our holistic package includes coverage of your health, wealth, and wellness—as well as a great work environment, employee programs, and company culture. We offer a competitive salary and benefits package, including industry-best insurance benefits and generous paid time off to help you balance your life. We have a strong culture and live our every day—we believe in transparency, curiosity, respect, and above all, having fun while delighting our customers. Speaking of a great work environment, here are just a few of the perks you may enjoy, depending on your location... Delicious and healthy snacks and beverages Electric vehicle charging stations A courtyard and amenities like an onsite gym, table tennis, pool table, play area, etc. Newly remodeled offices with state-of-the-art amenities Why Infoblox? We've created a culture that embraces and rewards innovation, curiosity, and creativity. We achieve remarkable results by working together in a supportive environment that focuses on continuous learning and embraces change. So, whether you're a software engineer, marketing manager, customer care pro, or product

specialist, you belong here, where you will have the opportunity to grow and develop your career.
