

Solution Architect (Supply Planning - Consulting)

[Apply Now](#)

Company: o9 Solutions, Inc.

Location: bangalore

Category: other-general

At o9 Solutions, our mission is clear: be the Most Valuable Platform (MVP) for enterprises. With our AI-driven platform — the o9 Digital Brain — we integrate global enterprises' siloed planning capabilities, helping them capture millions and, in some cases, billions of dollars in value leakage. But our impact doesn't stop there. Businesses that plan better and faster also reduce waste, which drives better outcomes for the planet, too. We're on the lookout for the brightest, most committed individuals to join us on our mission. Along the journey, we'll provide you with a nurturing environment where you can be part of something truly extraordinary and make a real difference for companies and the planet. What you'll do for us: Lead the complete lifecycle of a project from design to deployment of o9's solutions to customers across industries and geographies. Effectively map the business requirements into o9's platform and come up with a clear, phased achievable blueprint. Lead the blueprinting sessions and publish the business requirements along with key design decisions and data dependencies. Work with a team of experts to configure, solution as per the design to solve deep operations / supply chain problems and institute rigorous performance monitoring process. Work with the customer to resolve issues and coordinate defect tracking, analysis and resolution process. Diligently help in improving internal processes and product features based on customer feedback by interfacing with the development and operations teams. Support customer demonstrations. Be a mentor and guide to junior members. What you'll have: 7 years of experience with implementing supply chain planning applications is a MUST. Statistical, Optimization and Simulation skills through software tools and packages like R, SAS, CPLEX or similar is desirable. Deep understanding of supply chain planning

concepts including Distribution Planning, Master Planning and S&OP. Knowledge and training in databases (SQL Server, MySQL) and skills one or more languages like SQL, MDX, T-SQL or similar is desirable. Proficient in the use of Microsoft Excel/PowerPoint for analysis and presentation. Experience in a planning solution deployment w.r.t to business requirement determination, solution and process design decisions, best practices prescription and value delivery. Experience using agile methodology to deliver large scale enterprise implementations. Ability to work collaboratively with cross functional teams, distributed across locations and time zones. Education: Master's Degree. Degrees in the following fields: Operations Research, Mathematics, Science, Engineering, Business Administration, Business Analytics, Computer Science, or related fields (including Supply Chain Engineering)

What we'll do for you: Competitive salary with stock options to eligible candidates

Flat organization: With a very strong entrepreneurial culture (and no corporate politics). Great people and unlimited fun at work. Possibility to make a difference in a scale-up environment. Opportunity to travel onsite in specific phases depending on project requirements

Support network: Work with a team you can learn from every day. Diversity: We pride ourselves on our international working environment. Work-Life Balance:

<https://youtu.be/QbjtgaCyhes?feature=shared> How the process works: Apply by clicking the button below. You'll be contacted by our recruiter, who'll fill you in on all things at o9, give you some background about the role and get to know you. They'll contact you either via video call or phone call - whatever you prefer. During the interview phase, you will meet with technical panels for 60 minutes. The recruiter will contact you after the interview to let you know if we'd like to progress your application. We will have 2 rounds of Technical discussion followed by a Hiring Manager discussion. Our recruiter will let you know if you're the successful candidate. Good luck!

More about us... With the latest increase in our valuation from \$2.7B to \$3.7B despite challenging global macroeconomic conditions, o9 Solutions is one of the fastest-growing technology companies in the world today. Our mission is to digitally transform planning and decision-making for the enterprise and the planet. Our culture is high-energy and drives us to aim 10x in everything we do. Our platform, the o9 Digital Brain, is the premier AI-powered, cloud-native platform driving the digital transformations of major global enterprises including Google, Walmart, ABInBev, Starbucks and many others. Our headquarters are located in Dallas, with offices in Amsterdam, Paris, London, Barcelona, Madrid, Sao Paulo, Bengaluru, Tokyo, Seoul, Milan, Stockholm,

Sydney, Shanghai, Singapore and Munich.09 is an equal opportunity employer and seeks applicants of diverse backgrounds and hires without regard to race, colour, gender, religion, national origin, citizenship, age, sexual orientation or any other characteristic protected by law
