Category: computer-and-mathematical

Tableau BI Analyst :
Description : Looking for a "BI Analyst- Tableau" to design, develop and manage Tableau deliverables as a part of the "Data Analytics" team at SpectraMedix. The successful candidate should be able to build high-quality, innovative and fully performing dashboards in compliance with BI standards and technical design.
RESPONSIBILITIES :
- Develop variety of business intelligence dashboards in Tableau for Analytics delivery
- Develop an understanding of the current end-to-end BI platform architecture to support the deployed solution (Tableau server: configuration, access, deployment)
- Work closely with internal Data Analytics team to provide technical review and development estimates based on desired metrics defined by business teams and clients
- Standardizing design and processes to create/update dashboards
- Work with other UI teams to standardize look and feel of SpectraMedix offerings
- Manage and monitor the ongoing data-loads/extracts for dashboards in production
- Maintain update process logs
- Thought leadership on trial and acceptance of latest Tableau
- B.S., in Computer Science or related field
- 3+ Years working experience
- Hands on experience into Tableau is mandatory
- Good functional competence and understanding of SQL
- Tableau certification is preferred
- Excited about Tableau services development and delivery
- Ability to work on multiple projects simultaneously
- Ability to set up and take ownership of tasks and processes
GOOD TO HAVE :
- Working into Healthcare domain is plus.
