

Sr Software Engineer (Sr React Developer)

[Apply Now](#)

Company: Gnapi Technologies

Location: bangalore

Category: other-general

Company DescriptionGnapi is an Information Technology Company with registered offices in India, Canada and the United States. Gnapi provides end-to-end IT services and solutions to help clients succeed. The company fosters relationships to provide the best-fit IT solutions, supported by their technology expertise. Gnapi specializes in GIS applications and collaborates with multiple customers across North America.

Role DescriptionThis is a full-time, on-site role for a Senior React Developer located in Bengaluru. The Senior React Developer will develop and maintain high-quality software using React and other related libraries and frameworks. This role will collaborate with cross-functional teams to identify business opportunities and provide customized solutions, and will work closely with UX designers, product managers, and back-end engineers. You will be working closely with our collaborative team, supporting and building projects as required. The code you write will need to be cleanly organized and of the highest quality. You'll also help ensure solid application performance and an excellent user experience.

Responsibilities:Developing new features and user interfaces from wireframe models
Ensuring the best performance and user experience of the application
Fixing bugs and performance problems
Writing clean, readable, and testable code
Cooperating with back-end developers, designers, and the rest of the team to deliver well-architected and high-quality solutions

Qualifications5 years of professional experience with web development using React
Strong proficiency in React, JavaScript, HTML, and CSS
Experience with Redux, React Native, and GraphQL
Linux: Ubuntu or RedHat
Web Servers: Apache
Database: PostgreSQL / PostGIS
Demonstrated expertise in web application development and software engineering best practices
Strong knowledge of

performance optimization techniques and experience improving website speed and user experience
Excellent problem-solving skills and ability to work independently and in teams
Experience with Agile development methodologies and software engineering collaboration tools such as Git, Jira, and Confluence
Excellent written and verbal communication skills
Experience with cloud platforms such as AWS and Azure is a plus
Preferred Qualifications:
Cloud Experience (AWS, Azure)
Prior experience working in Utility or Telecom IT Projects Experience would be an asset.
Experience with Geoserver, Open Layers
Experience working with Geospatial Data
Experience working with Postgres - able to write triggers, functions, procedures, sql code etc..
Education:
Bachelor's or Master's degree from an accredited university in Computer Science, Engineering, or related field or equivalent experience
Technology and industry experience
