

## Sr. UX Designer

[Apply Now](#)

Company: Pattern®

Location: pune

Category: other-general

Pattern is the premier partner for global ecommerce acceleration and is headquartered in Utah's Silicon Slopes tech hub—with offices in Asia, Australia, Europe, the Middle East, and North America. Valued at \$2 billion, Pattern has been named one of the fastest growing tech companies in North America by Deloitte and one of best-led companies in America by Inc. More than 100 global brands—like Nestle, Sylvania, Kong, Panasonic, Sorel, and Pandora—rely on Pattern's global ecommerce acceleration platform to scale their business around the world. We place employee experience at the center of our business model and have been recognized as one of America's Most Loved Workplaces®.

We are looking for a Sr. UX Designers to help shape the future of one of our platforms, Predict, the tool that our brands and brand managers use to identify their opportunities, then take action to increase their ecommerce on global marketplaces

This is a full-time role and will work a hybrid schedule based in Pune, India.

### Essential Responsibilities

Research our users with a passion for how they think and work

Gain an expert understanding of worldwide ecommerce marketplaces

Stay informed on the competitive space

Assemble wireframes using our pre-designed interface patterns

Design innovative user interactions for core business workflows

Tell the story with outstanding spoken and written communication

Define, document, and present software requirements

Collaborate with our product and development teams

Conduct user testing

Ensure quality of the product UX

Continually learn about new UX concepts and share with UX team

Translate written requirements and concepts into user flows, mockups and prototypes that lead to intuitive user experiences for web applications.

Create designs fully ready to hand off to the development team.

Recommend design solutions and UI improvements across all digital products and services.

Communicate design processes, ideas, solutions, and concepts clearly and effectively to teams that are not skilled in UX discipline.

#### Required Qualifications

Bachelor's degree in HCI, Visual Design, Industrial Design, Psychology, Engineering, or other related degree

6 to 8 years experience with UX-related responsibilities

Basic understanding of Figma (if you've used Sketch, Adobe XD or any other design platform, you'll pick it up in no time)
