

Tableau Developer - Data Visualization

[Apply Now](#)

Company: Ridgeant Technologies

Location: India

Category: computer-and-mathematical

Role : Tableau Developer
Experience Level : 3-5 years
Job

Overview :
We are seeking an experienced Tableau Developer to join our dynamic team. The ideal candidate will have 3-5 years of hands-on experience in Tableau development, with a strong understanding of SQL and data warehousing concepts.

As a Tableau Developer, you will be responsible for designing, developing, and maintaining interactive dashboards and reports to enable data-driven decision-making across the organization.

Key Responsibilities :

- Design, develop, and maintain Tableau dashboards and reports to visualize data insights and support business objectives.
- Collaborate with stakeholders to gather requirements and translate them into effective visualizations.
- Optimize Tableau performance and ensure scalability of dashboards for large datasets.
- Develop and maintain SQL queries for data transformation, and Analytics processes.
- Work closely with the data engineering team to ensure the availability and quality of data for reporting purposes.
- Conduct thorough testing and validation of Tableau dashboards to ensure accuracy and reliability of data visualizations.
- Provide technical support and troubleshooting assistance to end-users regarding Tableau dashboards and related data issues.
- Stay updated with the latest Tableau features, best practices, and industry trends to continuously improve reporting solutions.
- Solid RDMS experience and data modeling and advanced querying skills.
- Strong ability to extract information by questioning, active listening, and interviewing.
- Awareness of agile/iterative approaches.
- Strong analytical and problem-solving skills.
- Excellent writing skills, with the ability to create clear

requirements, specifications, and Documentation.

- Experience using JIRA / Confluence is needed.

Qualifications :

- Bachelor's degree in Computer Science, Information Technology, or related field.

- 3-5 years of proven experience as a Tableau Developer or similar role.

Preferred Qualifications :

- Tableau Desktop/Server certification.

- Experience with other BI tools such as Power BI, QlikView, or Looker.

- Knowledge of cloud platforms (e.g., AWS, Azure, Google Cloud Platform).</p></p> (ref:hirist.tech)
