

Walkin Drive for Senior .NET Developer on 6th Jan 2024

[Apply Now](#)

Company: OSI Digital

Location: India

Category: computer-and-mathematical

OSI Digital is looking for a Senior .NET Developer with 6+ years of experience, your primary responsibility will be to design, develop, and maintain API endpoints for our applications. You will work closely with cross-functional teams to deliver high-quality software solutions. Here are the key responsibilities and required skills for this role

Responsibilities:

Collaborate with the Technical Architect and project stakeholders to define and refine the technical direction of the project.

Drive the design and development of robust, scalable, and efficient solutions using C# and related technologies.

Conduct code reviews, identify areas for improvement, and enforce code quality standards

Collaborate with cross-functional teams, including DevOps, QA, and business stakeholders, to ensure successful project delivery.

Required Skills:

6+ years of experience, developing REST endpoints using C# programming and .NET technologies and validating them using test scripts.

Strong experience on API Development using Entity Framework

Strong knowledge of SQL & NoSQL

Hands-on experience in Angular or ReactJs is a plus

Strong understanding of micro services architecture and API development, including experience with API gateways and service orchestration

We are not looking for someone who:

Never worked with Clients Directly

Not willing to work from the office

About OSI Digital
