Windchill Build Lead

Birlasoft is currently seeking an experienced PLM Solution Architect who enjoys interacting with both customers and peers to join our Extended Product Lifecycle Management (EPLM) Team. The architect will be involved in all phases of projects, from analysis of client's needs to implementation, configuration, and execution of all phases of the data migration process. The architect will be dealing with large, high-profile clients in the life science, automotive, defense, and manufacturing industries and will be required to configure and execute solutions to meet the client's complex needs. The ideal candidate will have strong communication skills and a willingness to provide support along with strong technical knowledge.

Any candidate with 7 to 9 years of experience is encouraged to apply. PLM software specific training is provided.
